

Jolly Snowman Lawn Figure

This pattern is set on a grid system. It can be enlarged to scale using corresponding squares of the desired size.

This particular pattern is ideal for a 1' grid system -- it will fit perfectly on a 4' x 8' sheet of plywood.

(4' x 8' sheets of craft paper, available in most craft centers, can be used to create the pattern.)

Transferring the Pattern

There are several options for transferring the outline from paper to plywood:

- ✿ Cut out the pattern and trace around it
- ✿ Use carbon paper
- ✿ Use a heavy-line marker and press down firmly, allowing the line to bleed through the paper. (This method will not work with heavier weight papers.)
