

# PARTY FAVORS

By Sandi Genovese

Create magnet bookmarks as party favors that can also be included on a scrapbook page. These handy bookmarks can be created to coordinate with any theme and are perfect for holding journaling panels on the page or for marking your place in a mini-memory book.

1. Fold red paper in half and place the folded edge just under the stem of the chili pepper. Die cut (or scissor cut) through the double thickness. (Fig.1)

Fig. 1

2. Cut a stem out of two shades of green, layer together and attach to the front chili pepper. (Fig.2)

Fig. 2

3. Cut two strips of self-adhesive magnet. Place the magnetic sides together, remove the protective backing from one side and fasten inside the folded chili pepper. Remove the backing from the other magnetic strip (leave the strips magnetized together) and close the folded chili pepper to attach the magnet to the remaining side. (Fig.2) Now when the folded chili pepper is opened and closed, the magnet strips will be perfectly aligned and will clamp on the pages of the mini-memory book to mark your place. (Fig.3)

## To complete the page:

4. Cut a strip of striped paper to attach to the top of a 12" x 12" page. Embellish some of the stripes with sticker strips.

5. Hang metallic letters with embroidery floss and tape to the page before fastening the striped strip to cover the tape.

6. Replace the black ribbon for a rainbow ribbon in the mini-memory book.

7. Place a blue mat inside the window opening of the book cover and add the trimmed photo onto the mat.

8. Embellish the book cover with additional stickers and fasten the book to the 12" x 12" page with an aggressive adhesive.

9. Clamp the chili pepper bookmark to the cover of the mini-memory book to complete the page.
