

Beaded Icicles

Project instructions and image provided courtesy of Candace Baranello from Malverne, N.Y.

Materials:

silver shimmer pipe cleaners

several bags of each bead

- 6mm and 8mm faceted beads
- Rondels
- 12mm and 18mm cartwheel beads
- "tri" beads

Steps:

1. Bend up the end of one pipe cleaner just a bit so the beads can't slide off.
2. Add the beads in the following order: one Rondel, one 6mm faceted, one 8mm faceted, seven 18mm cartwheel, seven 12mm cartwheel, seven "tri" beads, four 8mm faceted, three 6mm faceted, and three Rondels.
3. Make a loop at the top end of the pipe cleaner and twist in place to secure. You're done!
