

Porcupine and Sonobe Ball Paper Ornament

Ornaments and resource information provided courtesy of viewer Kathy Stevick from Marshalltown, Iowa.

This porcupine paper ornament is made from wrapping tissue paper. Kathy originally discovered the directions in the December 1984 issue of McCall's Needlework & Crafts "Stars of Christmas." Later she found directions in a book that called it a "Traditional Polish Star." Most recently she saw the directions online at familyfun.go.com/crafts/cutpaste/craft/polishstar

Also made of wrapping tissue paper, Kathy originally found the directions for this Sonobe ball ornament in the book *Origami: 30 Fold-by-Fold Projects* by Paulo Mulatinho. The designer of the star is Mitsunobu Sonobe. She later discovered the folding directions in the book *Origami for Christmas* by Chiyo Araki as part of a decorative box project. Most recently Kathy found the directions on line at www.netpark.or.jp/origami/cube.html. The ball is made from 30 of these units. Find assembly directions at hverrill.net/pages~helena/origami/sonobe/instructions.
