

Leaf Skeleton Ornaments

Ornament and project instructions provided courtesy of viewer Sarah Harris from Valencia, Calif.

Materials:

small, clear glass bulb ornament with cap
leaf skeleton
pointed object such as a pen or paintbrush
ribbon

Steps:

1. Remove the cap from the ornament.
2. Roll up the leaf skeleton and put it through the opening of the bulb.
3. Use a pen or paintbrush tip to position the leaf inside the ornament as desired. Smaller bulbs and leaves work best.
4. Tie coordinating ribbon at the top of the bulb.

These look outstanding in white or ivory. You can display them all year round if you wish! In any case, they are a beautiful addition to any tree.
